The Liberal press has lately been making much of an alleged i scandal at Prince Albert, where it is claimed a Conservative sed Donaldson had been granted by Hon. The lands in question then were open to purchase or homesteading in the ordinary way, but the public at large did not know it. In a short-time, later in 1907 or 1908, there was an applicant for certain parcel of land in this area.

The land agent on the spot hesitated, and consulted the Departat. The land applied for was certain soon to become very values should be make public the fact that it was open to the public or should be accept the application which some person better informed than the general public already had filed?

The Department passed the problem along until it reached Mr.

On March 31, 1928, Mr. Oliver gave an order that the land was to go to "the first eligible applicant." On April the eligible applicant got his entry, although it was on April 4 the Department formally sent instructions to the local agent. Apparently, no time

It seems that the Liberals overlooked, through an error, 80 acre of land. This adjoined the area which had been the subject of ruling in 1988. Ehat the Government is fully alive to the question of water stock panies and the desirability of preventing abuse arising out of exputialistion, has been shown by the recent debates in the House commons, when not only the Prime Minister but also the Hon. Speaking with regard to street railway, electric light, power and way companies, Mr. White said: "With regard to these companies I think there is a general view that some supervision should be exercised by Parliament or through a Public Utilities Commissio for reasons that are obvious."

The Finance Minister also spoke on the question of supervising industrial companies' stock. Mr. White said: "I believe that in Germany there is supervision over the stock issues of industrial companies. and I should not be surprised at all to find that the day will come—no doubt the legislation to which I refer will come gradually as all legisla-tion of the kind does—when some form of supervision will be exercised even over industrial companies. It will probably be for the purpose of protecting shareholders and people who buy shares. It will probably be for the purpose of protecting shareholders and people who buy shares. It has been great evils in connection with the issue of water stock of industrial companies, or, in other words, in connection with the capitaliza-tion of profit." Further on in his speech, the Finance Minister stated, "the real evil is the possibility of watered stock."

In 1662 Dr. Stubbs wrete a book about choo-olate called "The Indian Nector."

Here are some passages from his treatise:

"—the Indians (of the tropics) by the help of cacao nuts (cocoa beans) alone do subsist all day, notwithstanding their great labor, and heat."

"I dare avow that one ounce of Cecao-paste (beaten cocoa beans) well digested, will yield more fat than a pound of fat beef or mutten."

Were he alive today, what a good time Dr. Stubbs would have over a cup of Lowney's Cocoa.

Lowney's is simply cocea at its best. The cocoa beans used are carefully chosen from the best yields of the tropics. They are carefully roasted, blended and ground in our Montreal factory.

The flavor of a properly prepared cup of owney's Cocoa is simply delicious. Sold by grocers. In tins, 10c to 50c sizes.

Principal Black's idea is that the Vetorian Order's should work in conjunction with the home economic-fuls, a revent organization of women throughout the country.

The idea was very favorably reviewed by the difference and it is likely that some practical scheme will be worked out.

Liberals have loudly and insistently denied that their policy upon naval issue is a separatist policy. In the face of the speeches of eral members as recorded in Hansard, this denial does not count

Take the case of George William Kyte, Liberal member for the Nova Scotia riding of Richmond. Mr. Kyte fears that the presence of Canadian Dreadoughts in the little lattle fleet fighting for the Empire, in the North Seep, would bring upon Canada the "reprisal" of an exemy with whom the Uritid Empire was at war. FRY'S Cocoa undoubtedly is. But its goodness more than matches its taste-for FRY'S is all nourishment. For instance-nearly one-fifth its bulk is albumen, and albumen is only another form of flesh. Fat, it has, in large proportion-for the making of energy. Little bodies thrive-cheeks bloom with health-when FRY'S is used regularly. Made from a selection of the world's choicest growths of cocoa beans-and by methods matchless after 200 years' experience-FRY'S has no peer amongst cocoas.

RANCHING AREAS TO BE SET APART

Recently an important commission was appointed by the Government to investigate ranching conditions in Western Canada with a view to account of the control es of meat are imported from as lar away as new ceasand. It was this a view, to remedying these unsatisfactory conditions that the summission was appointed. Its report has been finded in to Hon. r. Roche, Minister of, the Interior, and will be published within we next fourple of weeks.

Among the principal recommendations are first the setting aside of certail areas for ranching purposes containing upon inspection on more, that fewerty-five per cent of agriculture land, the larger districts to be situated in southern Alberia and southern Saskatchewan. Evidence was adduced at the several meetings held showing that the decline of the ranching industry was principally due to the insecurity of the lease held, the present system allowing the cancellation of a lease upon two years' notice. Ranchers have been afraid to stock

put with on greater degree of security as to the tenure of their leases.

It is proposed that the term of the lease be extended to ten year without concellation. This, it is believed, will establish a sense o security which will have an important effect upon the revival of the

security which will have an important offect upon the revival of the floature,...

Another recommendation is that each lease cover an area not relievely of the control of the floature, and the floature of the floature

regulations. Those wanting to take out a lease for sheep ranching care within ten days of the expiration of such notice the lease is to be will be required to give notice. In protects have been custored within ten days of the expiration of such notice the lease is to be will be required to free the interaction of the such care to be such as the control of the such care to be will be required to free the interaction of the rancher, One head of stack the every thirty areas will be the allowed, a larger area being allowed in the frontillor.

THE RITCHIE COMPANY, LIMITED

Spring Opening Friday, March 14th

On Friday, March 14th and following days we will hold our preliminary Spring Opening, when we will be showing for the first time the new spring fashions in Millinery, Ready-to-Wear Garments, Dress Goods, etc., etc.

We extend a cordial invitation to all the ladies of Belleville and vicinity, to be present.

The New Millinery

The Millinery Department is always the centre of attraction and with Easter so near at hand the showing is doubly interesting. The greater number of our Pattern Hats have arrived from Paris, and these, together with smart American Hats and clever reproductions and original models from our own workrooms make a most attractive showing.

In the Front Store

There is a splendid display of the New Dress and Suiting Fabrics, in all the new weaves and colorings; as well as beautiful Dress Trimmlngs, Cloves, Neck-wear, Wash Fabrics, Linens, etc., that cannot fail to please all interested in the new styles.

In the Mantle Department

you will find displayed the newest styles in Ready-to-Wear Garments for ladies and children, including new Tailored Suits, Coats, Dresses, Skirts, Waists, Underskirts, Kimonos, Corsets and Lingerie. These have been carefully selected from the best makers at home and abroad and the styles are authentic in every case, while values are exceptional.

We are showing some Real Irish Hand Embroidered Waists that are not only beautiful but bargains at the prices \$6.00, \$8.00 and \$9.00.

Do Not Miss the Display of Rugs on the 3rd Floor

No one visiting the store should miss the display in the Carpet and House Furnishing Sections, 3rd floor. The most beautiful Rugs ever brought to Belleville are here, including number of exect copies of genuine Persians, in the famous Kirman, Kasghar, Saraband and Tabriz patterns, the originals of which are now in museums, or have been sold to private individuals at fabulous prices.

In addition are shown the newest Curtains and Drapery Fabrics, including Chintzes, Linen Tapestries, Damasks, Velours, etc., etc., displaped in such a way as togive a fair idea of the newest methods of their use. You are welcome.

We extend a cordial invitation to all the ladies of Belleville and vicinity, to be present.

The New Millinery

The Millinery Department is always the centre of attraction and with Baster so near at hand the showing is doubly interesting. The greater number of our Pattern Hats have arrived from Paris, and these, together with smart American Hats and clever reproductions and original models from our own workrooms inake a most attractive showing.

In the Front Store

There is a splendid display of the New Dress and Suiting Fabrics, in all the new weaves and colorings; as well as beautiful Dress Trimmings, Gloves, Neckwear, Wash Fabrics, Linens, etc., that cannot fail to please all interested in the new styles.

In the Mantle Department

you will find displayed the newest styles in Ready-to-Wear Garments for ladies and children, including new Tailored Suits, Coats, Dresses, Skirts, Waists, Underskirts, Kimonos, Corsets and Lingerie, These have been carefully selected from the best makers at home and abroad and the styles are authentic in every case, while values are exceptional.

The most beautiful Rugs ever brought to Belleville are here, including number of exect copies of genuine Persians, in the famous Kirman, Kasghar, Saraband and Tabriz patterns, the originals of which are now in museums, or have been sold to private individuals at fabulous prices.

In addition are shown the newest Curtains and Drapery Fabrics, including Chintzes, Linen Tapestries, Damasks, Velours, etc., etc., displayed in such a way as to give a fair idea of the newest methods of their use. You are welcome.

HAYEN'T you heard men right here in town say "How I would like to go over to London or down to the States for my clothes"?

Well, what would you get when you got there?

. If you went to London, to the best tailors, you'd get the same cloths and the same patterns that you can get in Fit-Reform Suits at \$25, \$33, \$40 and \$15, \$61 you want to the States, you wouldn't get any better workmanship, even at the most expensive shops, than you get in Fit-Reform Suits.

Compare a Fit-Reform Suit at any price from \$18. to \$35,—with one made in London or in the States at \$10. more.

Compare styles, talloring, cloth, lining, finish—and you'll find that for down right satisfaction, service and valce, you get a bigger money's worth in Fite Reform gaments than you can get in London or the States for \$10 more. Ladies' Garments For Easter Week

We consider we have been most fortunate; in that we have secured for Easter Week a large shipment of Ladies' New Spring Garments. In this lot of new garments are many of the Celebrated "Northway Costumes", garments that have a Dominion reputation for their "shape keeping" qualities. We also show many lines of New Spring Coats, all of which are cut in the new three-quarter and seven-eighth lengths. All these garments are shown in Ladies and Misses styles and sizes and make a very attractive Easter Display.

Our Spring Showing of Semi-ready Clothes

EVERYTHING is 50 per cent higher in price except Semi-ready and Postage Stamps!" said a Western man who wished to put point to the higher cost of living.

By closer, cleaner organization, by a multitudinous saving and by constant study of efficiency, the coat of Semi-ready Clothes has been kept at the same standard during the Seven Long Years of Advancing Prices in every product.

The Clever Work starts right in the wool market, and ends right here at this store, where we know that Good Clothes can be sold at closer profits than cheap clothes, because there is less time and talk required in the selling—and none of the after-worry from the unfortunate buller of cheap stuff. No man buys cheap clothes who knows the first point in good clothes.

The power and prestige of Semi-ready clothes did not come to it by chance. When you see the Semi-ready label in the pocket you know that it tells the straight story of good value. F. W. Millard, Belleville, Oot.

No Hand Ever Touches Tillson's

In the first place, the choice oats used in the making of Tillson's are harvested, threshed and shipped to us without coming in contact with human hands.

Next, when they reach us, every step in the process of making is done by machinery, from the cleaning to the packaging. Even the English porcelain dishes in the 25-cent size are dropped in by

machines. No hand touches them here.

Finally, with the package sealed up, no hand can touch Tillson's from the time they leave our mills until you open the package in your own home.

During the last few days Belleville has been visited by some sever storms. Due to this cause we have had broken wires and interrupted service. We have had our men working night and day so that our consumers would be inconvenienced as little as possible.

We wish to thank the public for the assistance they have rendered us by reporting limbs and broken wires, but for general information don't touch any broken wires, but phone 270, 566 or 274. If this is done we will have men look after the work as soon as possible.

Yet even this favor was not granted in 1890, by what is termed the Liberal party, led by Sir Wilfrid Laurier. Fortunately the same game cannot be repeated in 1913, for the reason that in 1836, these lovers of ruling by minority talked Parliament out of existence. To attempt such a task now would necessitate a talk for nearly four years, which might ssibly affect the vocal organs of the minority.

It will be remembered that in 1890, the what is misnamed Liberal

party, refused to allow even an interim supply to be passed. They talked till Parliament ceased to exist, and then when they obtained power, they secured illegally through a Governor-General's warrant, money to pay the country's indebtedness. This cannot be repeated for the reason already air-

Every cocoa manufacturer must remember this homely proverb or he'll scorch his reputation as well as his flavor.

Cocca beans vary in size. If roasted together, the small beans would burn by the time the large ones were brought to the right flavor. To insure a perfect, uniform roast, the small and imperfect henne are removed

Variations in weather, fertilizers, pickers em-Parations in weather, tertifizers, pickers em-ployed and a hundred and one other things, all influence the quality of the cocoa beans. We therefore test each shipment of beans for flavor.

Only strict standards in buying, blending and roasting can insure the unmatched flavor that Mr. Lowney insists on.

You invariably find in Lowney's a full, exquisite richness to be had in no other cocoa.

There are more than two-and-a-half times as much Tillson's in the 25-cent package as in the 10-cent package.

Besides, the larger package contains a little present for you in the shape of a porcelain dish from England.

Sometimes it's a cup and saucer. Then again it's a porridge bowl. And another time it's a tea plate or fruit saucer. There is always one or another of these dishes in every 25-cent package, in addition to a big 25-cents, worth of the cleanest, astiest, most nourishing rolled oats that can be produced.
